Skillet

(www.skillet.com)
With eight number one
radio singles under its belt,
eleven Dove nominations,
and over 200 Jani-pak first
concert dates a year, the group is bringing Christian
music's alternative side with a solid com-
mitment to artistic excellence and evangelistic

relevancy. "I've always made a conscious effort
to write about what I felt God was telling me on
every project, and since we've started, I think
we've covered a lot of bases," reflects Cooper.
"We've encouraged those within the church and
hopfully introduced people to Christ that hadn't
known him before. I think this current phase of
Skillet will take us further down these roads even
more effectively."
